

SELAH SUE PERSONA

LYRICS

KINGDOM

The Self-Confident

Listen up
My kingdom makes your kingdom
come undone
Gotta be living what I'm saying,
it's gonna be it's gonna be fun fun fun
I take the future raw and outcome the claws
I spit motivation 'till I'm the baddest of them all
Get faster,
stronger don't stop the bigger descending
Sweating out respect won't take this for granted
Get your piece of cake when it's baked
I set it right
Cease and desist when I'm on my glow up

I'm a bad bitch show off
I won't stop if I show up
I'm a queen in my kingdom
And it feels good
My kingdom makes your kingdom a wondah

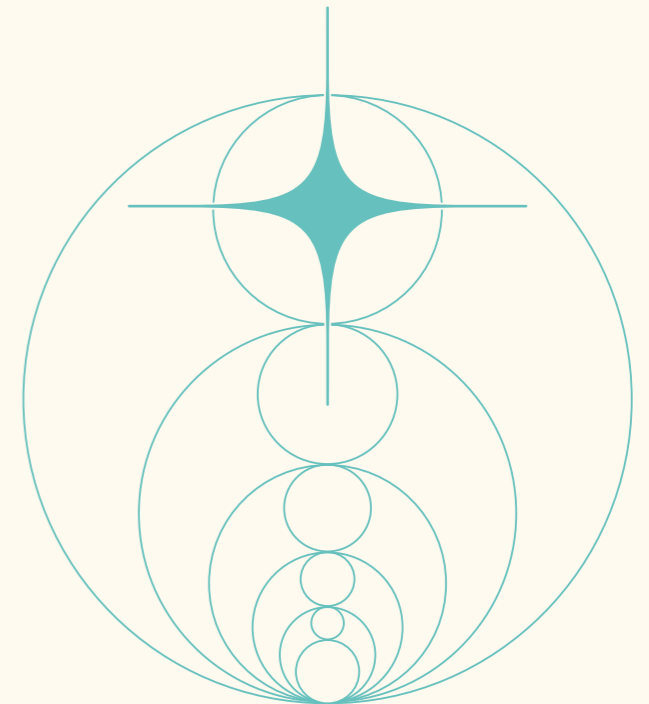

Gotta be livin' what I'm feeling
or it's gonna be gone gone gone
I make the future real, my eyes can't conceal
My pain is an illusion so I never gotta heal
Get faster, stronger,
don't stop the bigger descending
sweating out respect won't take this for granted
Get your piece of cake when it's baked
I set it right
Cease and desist cause I'm on my glow up

I'm a bad bitch show off
I won't stop if I show up
I'm a queen in my kingdom
And it feels good
(x2)

Whatcha thinkin' now
Do I talk too loud?
Do I freak you out?

Am I acting out?
Does it bring you down?
I'm the future now

You are the author of your autobiography
You write the story of your life
No one can write your financial story
No one can write your spiritual story
No one can write your emotional story
The pen has always been in your hand
The pen has always been in your hand
I say write a story that's gonna be damn good to
read!

HURRAY

FEAT. TOBI

The Critic and Attention Seeker

(Give a hip hip hip a, give a hip hip hip hurray
Ladies & gentlemen, welcome to the pity
party
Give a hip hip hip a, get away)
Look at you now
Got the whole world staring at you
You think it all stops spinning when you
Close your eyes
(when you close your eyes)

You spend all your time
Try to make me jealous of you
Showing off that beauty
That you don't really have
(and that booty that you don't have)

All I see is your mistakes
It's giving me a headache
every minute every day

It's so hard to
Get away get away get away get away
From what it says about me (Aaay)
I'm judging everybody
when I'm just as guilty

Get away get away get away get away
from what it says about me (Aaay)
Don't want nobody to see
I'm just as guilty

So please, cheer for me,
come on and say it, hip hip hurray
Say it, I'm just as guilty

Craving for love
Need a whole crowd cheerin' for you
Your attention seeking and
You live for the likes
(just so you can sleep at night)

I can't figure out yeah
if I pull at the seams
will you fall apart
and show beauty only goes skin-deep

Everything I see is fake
It's giving me a headache

Every minute every day
It's so hard to
Get away get away get away get away
From what it says about me (Aaay)
I'm judging everybody
When I'm just as guilty

Get away get away get away get away
From what it says about me (Aaay)
Don't want nobody to see
I'm just as guilty

So please, cheer for me, come on say it,
hip hip hurray
Say it, I'm just as guilty

(I tried my best, ladies and gentlemen)
How come every time
I ring your phone you don't pick?
How come every time
you home alone you so sick?
Fame has got you sprung

And them Benjamins got a grip
Around your neck and on your lips
Got you craving another hit
To be honest
We got the two in common "I guess"

Point a finger three pointing back to me
like I'm "it"
misery love company come
and join in the fun with me Before the party
over
and they screaming "hurray"

Get away get away get away get away
From what it says about me (Aaay)
I'm judging everybody
when I'm just as guilty

Get away get away get away get away
from what it says about me (Aaay)
Don't want nobody to see
I'm just as guilty

So please, cheer for me, come on and say
it, hip hip hurray
Say it, I'm just as guilty

(THANK YOU, Ooh you shouldn't have,
thank you so much)

TRY TO MAKE FRIENDS

The Introspective One

Did I make you think I'm strong?
Did I make you laugh, did I have you fooled, did I have
you fooled?
If I told you I can do no wrong
Do you think it's fake or do you know the truth, do you
know
the truth?

If you see me crying
I just blame it on the rain

I would have to bite my tongue
If I said my past didn't haunt me good

Cause inside of me
I try to make friends
with all of my anxieties
And desperately
I tried to fight
but I can't deny

it's part of me
My personalities
Keep on taking turns at the wheel I never know if we're
crashin'
So patiently
I try to make friends
with all of my anxieties

I know it's only in my head
I know I'll have to deal with this forever
It doesn't help me to pretend
that I got my shit all together

Cause every time I'm driving
They try to make me hit the brakes
Swerving into different lanes
Almost made me crash from the same mistakes

So inside of me
I try to make friends
with all of my anxieties
And desperately
I tried to fight
but I can't deny
it's part of me
My personalities
Keep on taking turns at the wheel I never know if we're
crashin'
So patiently

I try to make friends
with all of my anxieties

And if we end up driving off a cliff
Won't you fly with me
Maybe this is always what we get
Ain't that poetry

Cause inside of me
I try to make friends
with all of my anxieties
And desperately
I tried to fight
but I can't deny
it's part of me
My personalities

Keep on taking turns at the wheel I never know if we're
crashin'
So patiently
I try to make friends
with all of my anxieties

PILLS

The Apathetic

I can't do it
Can't feel a thing, I'm numb
All I do is wait
Is there something wrong with me?
Honestly, I don't
Get as high
When I medicate
And I can't go on like this

Oh I blew it
I think I took out the fun
Empty as hell
Made me lose my attitude
I know I won't get as high
When I medicate and I can't go on like this

I'm useless
Someone wake me up from this life, yeah

I wish that I could feel something
But the pills do what they do

I was dancing on the ceiling
Now I can't feel nothing new
And if you look real close, you'll notice
I lost all my emotions
Is it better when I'm broken?
Aiming for explosion?
I wish that I could feel something
But the pills do what they do

Guess I'm okay
But I keep doubting
If it's better in grey
Hidin' what's real
My chemicals
Just ain't right
And so I medicate
For some peace in my mind
It's useless
Can I wake me up from this life?

I wish that I could feel something
But the pills do what they do
I was dancing on the ceiling
Now I can't feel nothing new
And if you look real close, you'll notice
I lost all my emotions
Is it better when I'm broken?

Aiming for explosion?
I wish that I could feel something
But the pills do what they do

Wish that I could feel something
I don't know who I am lately
Wish that I could feel something
But the pills do what they do
I wish that I could feel something
But the pills do what they do

I was dancing on the ceiling
Now I can't feel nothing new
And if you look real close, you'll notice
I lost all my emotions
Is it better when I'm broken?
Aiming for explosion?
I wish that I could feel something
But the pills do what they do

WANTED YOU TO KNOW FEAT. DAMSO

The Independent

Playing me playing me
sold them my soul tonight
why would I compromise every time
just for attention?
You cannot fuck with me
Part of me probably try to be gasoline
Drunkenly playing with matches
You kinda lucky that I find the patience
You got lucky owning my mind
I get no love unless you feel the magic
You told me what to do a thousand
times
How am I supposed to breath?
This shit is gettin old, old
Open up your eyes and see
You're losing all control

I can do it on my own
I wanted you to know
(I wanted you to know)
You keep fucking up my flow
I wanted you to know

Tard la nuit
Je parle seul Canalise
Je roule des feuilles Dans le vide
Je crie je gueule
La colère monte
Les larmes coulent
A l'intérieur de ma poitrine
Les gens me parlent
Sans rien me dire
Et quand je l'ouvre
Que je me livre
On dit que j'suis taré
Que je suis barré
Même scénario
A fortiori
Mon temps de parole
S'affine

You kinda lucky I disguise the
sadness

Je me perds je me perds devant la glace
You got lucky owning my time
Mon avenir en pleine prise d'otage
I get no love unless I please the masses
Je me perds je me perds devant la glace
You told me just about a thousand lies

Fauché mon cœur est pauvre
Infecté nécrosé
J'crois plus en la chance
Nan au métal noir chromé
Bang bang bang
Je ne parle
Que dans la violence
J'implore le ciel
Mais mon ombre peut-elle être sauvée

I can do it on my own
I wanted you to know
(I wanted you to know)
You keep fucking up my flow
I wanted you to know
Watch me take control
Power sway rule reign
Gotta make a change
Watch me takin' over this

Imma fight for this
Makin' dollars outta pain
Watch me take control
Power sway rule reign
Just to make it through the day
Watch me takin' over this
Imma fight for this
Makin' dollars outta pain
How could you make me do this?
I'm a fool for your love
How could you make me do this?

THERE COMES A DAY

The Illuminated

There comes a day
There'll be a time
When it will all be all right
I'll find the peace I'm craving
But all you say is

Baby oh don't you lose time
Go get up in front of the crowd
I tell you I hope you don't mind
I'd rather stay home in bed yeah

A freedom dance
shackles off my feet
If I feel the pressure burning
I know the tides are turning

Still all you say is

Hurry, and don't you lie down
Put on a smile, you'll feel fine
I tell you I hope you don't mind
I'd rather stay honest

Oh ain't it funny how we try
to get the gold until we die?

Your life is an illusion
Ain't it funny how we play
these never-ending games
I know we're bound to lose someday

There comes a night
Without a doubt
But it will all be all right
The only voice I'll live by
Speaks out of kindness

So baby oh don't you lose time
I tell you it's all in your mind
One day I know you will find
some peace in your heart

So my mind won't fool me (fool me)

I won't be afraid no more
So I'll do it all again
I'll be true to you

Oh ain't it funny how we try
To get the gold until we die?

Your life is an illusion
Ain't it funny how we play
these never-ending games
Cause I know we're bound to lose someday

Your life is an illusion
I know we're bound to lose someday

ALL THE WAY DOWN

The Reconciler

I'll wait
For the day you'll forgive me
I pushed you, babe
Said your pain wasn't heavy

Oh!
Never tried to figure out

How far down you really fell
and all the reasons why
Oh I fucking need to learn to shut my mouth

Didn't mean to judge you
you can fall apart in front of me
All the way down
I can't feel whatcha going through
but I will stand beside you till I do

All the way down

Yeah (x5)
All the way down

I'll wait
For a sign that you're ready
Oh I know that you need a little space, yeah
Until that day comes
I'll be listening
Cause I know I'd die for you
If that means anything
I put you back together after you break
Didn't mean to judge you
You can fall apart in front of me
All the way down
I can't feel whatcha going through
But I will stand beside you till I do
All the way down

You getting gone has got me weak
Pulling on my chains cause I acted stupid (baby)

Yeah (x5)
All the way down (X4)

CATCH MY DRIFT

The Philosopher

Silence is beauty
When the morning comes
Through the waking lights
Mind games are doomed

As dawn burns into day
I'll be saying

Oh I was a fool
Along the way

The more I choose to love
The less I wander off, yeah
Ain't that what life's about? (X2)

The sins I tried to hide
Were flamin' up inside, yeah

Afraid of what the world would say
I choose to live a mindless way

Desire of the eyes
were messing up my mind
If you catch my drift?

A sky full of blue
When the morning comes
My soul is risin'
Life tastes so good
The power of the moment
is inflatin'

Oh I was a fool
Always try to
Win in life
Where was my mind?
Now I learned the truth
Along the way

The more I choose to love
The less I wander off, yeah
Ain't that what life's about? (X2)

The sins I tried to hide
Were flamin' up inside, yeah
Afraid of what the world would say
I choose to live a mindless way

Desire of the eyes
were messing up my mind
If you catch my drift? (X2)

But now is all we got
So time will only touch me
Softly, softly

TWICE A DAY

The Melancholic

Twice a day
The sun comes out and I will try to
Drift away
But if only I could find a way how
I try to overcome fear and shame
I don't know why I always tend to feel this way
I want to go back to sweet
and more simple days
Till the nighttime (x2)

Please take me back to what I need
I hope this trip was all a dream
Let's go back home and find a way to be (X2)

Twice a day
The sun comes out and I will try to
Drift away
But if only I could find a way how
I try to overcome fear and shame

I don't know why I always tend to feel this way
I want to go back to sweet
and more simple days
Till the nighttime (x2)

Please take me back to what I need
I hope this trip was all a dream
Let's go back home and find a way to be (X3)

Please take me back to what I need All a dream (X2)

CELEBRATE FEAT. MICK JENKINS

The Hedonist

Look what you're doing to me
I think you know it, right?
I'm wide awake looking at the ceiling,
stirring, feeling you tonight

My body's beggin' for you
I feel alive, feeling brand-new
Don't make me wait
We got nothing more to say

I wanted to be honest
I wanted for the longest
To tell you that I'm falling
I can't wait to celebrate you

I wanted to be honest
I'm done with all the talking

Replay it in the morning
I can't wait to celebrate your body

You know how to make me move

I'll let you sink into me
I'll let you draw me close
To have a taste of my lips
I'll take you on this journey with me
now

Just keep on holding me tight
And see the dawn of a new day
I wanna play
While the sheets are pulled away

I wanted to be honest
I wanted for the longest
To tell you that I'm falling
I can't wait to celebrate you

I wanted to be honest
I'm done with all the talking
Replay it in the morning

I can't wait to celebrate your body

And I'm feeling this
came and kicked it with nosotros s
hit don't be all over the internet
we don't be posting no photos
got like 500 followers
we could speak with some intellect
that shit pump my adrenaline
fully clothed we get intimate
thought I provoked her brain
she showed me my ignorance
never had the ego of little men
never been as shallow as manatee
feel like an oasis can it be

I wanted to be honest
(Now what do you think about this?)
I wanted for the longest
(how do you feel how do you feel about
this?)

To tell you that I'm falling
(I wanna be I wanna be your one wish)
I can't wait to celebrate you

I wanted to be honest
(Now what do you think about
this?)

I'm done with all the talking
(how do you feel how do you feel
about this?)

Replay it in the morning
(I wanna be I wanna be your one
wish)

I can't wait to celebrate your body
You know how to make me move

FULL OF LIFE

The Mother

I have seen enough
Oh everything I'll do
To save you from the ways of life
I would light the skies above,
I'd try to
Make the world a better place
Much sunnier than I have known
Hope will keep your dreams alive
Golden silence of the heart
Full of life
Without echoes from the past

Hopin' life stays so sweet
Hope you'll understand
How to keep your soul alive
You'll be shining like a diamond star
Know the meaning of life

When the echoes burn, you will know the
way to the silent heart
So I will keep this love song aside, on the
side
Full of life

Without echoes from the past I hope that
life stays so sweet
Full of life
Without echoes from the past I hope that
life stays so sweet
